## Litter Detectives

- In groups, investigate if there is any litter in your playground.
- Fill in what you find by completing the table below and discover if your playground has low litter, high litter or no litter.
- Area investigated: eg The equipment

When working as a litter detective, it's important not to touch any of the litter we discover unless instructed to do so by a teacher.

Category	Small size litter (no bigger than your thumb)	Medium size litter (no bigger than your fist)	Large size litter (bigger than your fist)	Total
